

After a full school year of hard study, Natalia is coming back home, she is writing a message to her friend Henry.

Hello Henry.

You know I had to leave early from school, I am sad, I could not say goodbye because my plane to Iceland leaves in three hours, and I have to be at the airport.

You know, I have not seen my family for a whole year. I won't come back to USA to study English anymore.

I would like you to invite you to my country in the summer vacations next year... there are things that are different for example, in your country in summer is very hot, but in **mine** is not so much; my country is small, **yours** is very big.

One of my sisters doesn't eat meat, so she is very thin, my favorite food is fast food, mainly hamburgers, **hers** are vegetables.

My family has a pet, **ours** is a dog, but all members have a pet, **mine** is a lovely cat, it lives with me, my room is ours!; my brother has a special one, **his** is an Eagle.

You know, my two sisters were born in the in the same month... my birthday is in November, **theirs** is in December. We celebrate the three birthdays with a common birthday party on the first Sunday of December. We make a special party for my mother's birthday, **hers** is on January first and we celebrate New Year and her birthday, there is music and dancing and traditional food of my country. Our gastronomy is based mainly on fish; one dish is prepared with shark, other with fish or whale. These dishes are strange for you, but **yours** were stranger to me.

Whenever you want to come to our house, you can. **Ours** isn't too big, but we can give you a room.

Well, it's late I have to get on the airplane.

See you, please write back soon.

Sincerely

Natalia
